

Fraser Health is one of Canada's largest and fastest growing health authorities, with over 25,000 employees, 2,500 physicians and nearly 6,500 volunteers.

### **Vascular Surgeon - Royal Columbian Hospital**

The Fraser Health Regional Department of Surgery and Royal Columbian Hospital (RCH) are seeking a Vascular Surgeon to fill a full time position starting November 2018.

The successful candidate will provide vascular consultation and surgical endovascular services for elective and emergency cases including trauma. The successful candidate will have appropriate training in advanced endovascular procedures including carotid stenting. The candidate must fulfill the roles of the CanMEDS framework.

The candidate will be required to participate in the funded (MOCAP) vascular surgery call group, and will be allocated surgical resources commensurate with her/his waiting list following Resource Allocation Methodology. There will be an obligation to provide teaching to medical students and surgical trainees.

To be considered, the candidate must have FRCS(C) certification in Vascular Surgery and be eligible for a full CPSBC license.

Royal Columbian Hospital is a provincial referral hospital (tertiary/trauma care centre) located in New Westminster, BC, with 422 acute beds that is a University of BC Affiliated teaching hospital that offers medical, surgical, advanced diagnostics & imaging, critical care, inpatient pediatrics, levels 1 & 3 obstetrics, outpatient clinics, level 2 & 3 neonatology, cardiac surgery, neurosciences, and tertiary programs as well as 24/7 emergency services with 75,986 visits annually.

The Royal Columbian Hospital Redevelopment is a multi-year, multi-phase project to increase the hospital's capacity, beds and services. Phase one is underway and includes multiple projects, many which prepare the hospital's infrastructure for future expansion as well as a new 75-bed mental health and substance use wellness centre with more outpatient clinics by late 2019/early 2020. Phase two, if approved by government, proposes to add an acute care tower with more beds for intensive care, cardiac intensive care, obstetrics and medicine/surgical and a new larger emergency by late 2022. Phase three proposes to upgrade existing buildings to support areas in the Health Care Centre, such as the laboratory and pharmacy, by 2025.

#### **Qualifications:**

- Eligible for certification as a Fellow of the Royal College of Physicians of Canada (FRCPC) in Vascular Surgery
- Eligible for licensure with the College of Physicians and Surgeons of British Columbia (CSPBC)

**Compensation:**

- Fee for Service
- MOCAP - On Call Payments
